

HB 69: Eliminate Reduced-Price Co-Pays for School Meals

Expanding School Meals Access for Montana's Children

Sponsored by Rep. Wendy McKamey

1 in 6 kids in Montana struggles with hunger

Free School Breakfast and Lunch can help children get the nutrition they need to succeed in the classroom.

\$615k State Funds  ~\$800k Federal Reimbursements

About the Free & Reduced-Price Meal Program

- Free breakfast and lunch is available to students with family income below 130% of the Federal Poverty Level (FPL).
- Students with family income between 130% to 185% of FPL are eligible to receive reduced-price breakfast and lunch - with a co-pay of \$.30 and \$.40, respectively.

8,600

Approximate number of kids facing economic insecurity in Montana who are eligible for reduced-price meals

1.4 million

Amount of reduced-price breakfasts and lunches being served annually to Montana kids

How HB 69 Works

- Children from families with incomes between 130% - 185% of the federal poverty level would receive no-cost school meals reducing the financial burden for families facing economic hardship.
 - Example: a family of four with incomes between \$33,475 - \$47,637.
- The proposed **\$615,000 in state funding** will go to local school nutrition programs to cover the difference between the federal reimbursement and the cost of the meal for all eligible Montana students.
- Many students who pay for reduced-price meals will eat breakfast & lunch for free, removing a significant barrier to participation.
- Eliminates administrative and financial burden of collecting unpaid meal debt from reduced-price-eligible students.

Montana Can Do Better

6,500

Number of **current** reduced-price school meal participants who will now receive free meals

970

Projected number of **new** reduced-price eligible students who will participate and receive no cost school meals

\$803,000

Projected **increase** in federal reimbursements due to increased participation benefitting school nutrition programs

Impact

- Research shows that when students eat school meals test scores increase, chronic absences drop¹, and behavior improves².
- Without the busy-work of student meal debt collection taking up valuable time, school administrators are able to focus more attention on academic priorities.

How School Meal Funding Works Now

Reduced-price lunch served
